IQweb PMS Mobile Application

State-of-the-Art Mobile Guest Management in the Palm of Your Hand

CORAL SPRINGS, FLA. — October 2, 2015 — IQware continues to take Mobile Guest Management to the next level with what might be its most accessible state of the art Mobile Guest Management yet — the **IQweb PMS Mobile** application. By taking the best of what IQpms has to offer and boiling it down to an easy-to-use mobile optimized version for popular devices like tablets, the
IQwerb PMS Mobile application becomes a portable Guest Management tool — and much more.

Staff no longer need be tethered to computers to effective Manage Guest. They can generate property statistics, check-in, check-out and generate guest list learn the current property status and even display the list of arrivals for the day — from anywhere they can connect to the Internet using their mobile devices.

In a global marketplace fueled by convenience and portability, **IQweb PMS Mobile** keeps your hospitality business ahead of the curve by supplying you and your staff with functionality that's as user-friendly as it is customizable. **IQweb PMS Mobile** applications represent more ways that IQware can provide its partners with the best State of the Art tool across multiple departments.

"IQweb PMS Mobile provides an ideal tool, helping hospitality better Guest Experience

and keep staff — anywhere, anytime."

— Francois Greffard, IQware's VP of Operations

What can IQweb PMS Mobile do for YOUR STAFF?

✓ **General Property Statistics —** Similar to the current property status in the IQpms, screen provides the Staff with basic operational data for the current day. They don't have to learn how to find **IQweb PMS Mobile** tool — it finds them!

✓ **Check-In** **—** In addition to browsing available accommodations and services in real-time, **IQweb PMS Mobile** allows staff to perform a remote Check-In including capturing the guest signature and sending key requests to the closest encoder, real-time.

✓ **Check-Out —** With its "Distance to Property" option, **IQweb PMS Mobile** can provide Staff review guest charges, apply payment and have the guest folio emailed to the client.

✓ **Guest List — IQweb PMS Mobile** provides a quick way to access list of reservations, in-house Guests or departure Guests as well as to make basic edits to Guest accounts.

✓ **Unit Detail Feature —** Guest locations and attributes Staff can save as well as access to the unit pictures stored within the PMS, all done via **IQweb PMS Mobile.**

✓ **Evaluate or Save —** Evaluate will be displayed if the stay breakdown needs to be refreshed due to ongoing changes. Save will be displayed when ongoing changes, not affected the guest stay value needs to be saved to the database.

✓ **Registration Card —** The **IQweb PMS Mobile** application can display the custom registration card and allow capture the guest signature. Customers won't be confused by mismatched interfaces when booking because the booking engine will look like a natural extension of each property's/company's branded site.

✓ **Staff —** Staff won't be confused by mismatched interfaces when using **IQweb PMS Mobile** because the application will look like a natural extension of the IQpms.

"IQweb PMS Mobile dramatically increases
the speed and ease-of-use

by doing just about everything IQweb PMS Mobile does —
from any Internet-enabled mobile tablet."

— David Perkins, IQware President & CEO
